ABOUT

Passionate Full Stack Developer with hands-on experience building scalable web applications using React.js, Next.js, FastAPI, MongoDB, and MySQL. Skilled in frontend development, backend API architecture, authentication systems, database management, and cloud deployment. Built multiple real-world projects including AI-powered Resume Analyzer and Interview Preparation Platform. Strong problem-solving mindset with a focus on building practical and user-friendly software solutions. Currently seeking internship opportunities to contribute and grow in a professional development environment.

EXPERIENCE

Indixpert Training Institute

Jan. 2024 – June 2025

Full Stack Development Trainee

India

- Completed **1.5 years intensive Full Stack Development training** focused on frontend, backend, databases, and software development fundamentals.
- Learned core programming languages including **C, C++, Python, JavaScript, and SQL** while building strong problem-solving fundamentals.
- Developed frontend applications using **HTML, CSS, Sass, SCSS, Bootstrap, React.js, and Next.js** with responsive and modern UI design principles.
- Worked with backend technologies including **FastAPI, REST APIs, authentication systems, JWT token handling, and API integration**.
- Built multiple real-world projects including **AI Resume Analyzer, Interview Preparation Platform, E-Commerce Store, and Banking Management System**.
- Used developer tools like **Git, GitHub, MongoDB, MySQL, Postman, Cloudinary, Vercel, and Render** during project development and deployment.
- Gained hands-on experience in **database design, authentication flow, debugging, deployment, version control, and full project lifecycle**.

PROJECTS

AI Klarity AI Resume Analyzer & Interview Preparation Platform

- **Live Demo:** ai-klarity-4oia.vercel.app
- Developed a full-stack AI-powered platform for resume analysis and ATS compatibility scoring using modern web technologies.
- Implemented resume parsing system to automatically detect user skills, job roles, and provide resume improvement suggestions.
- Built an AI-based mock interview generation system that creates personalized interview questions according to resume content.
- Integrated authentication system, profile management, dashboard analytics, resume upload, and interview feedback modules.
- Tech Stack: React.js, FastAPI, MongoDB, Cloudinary, JWT Authentication, Render, Vercel

KMAR Hotel Management System (Next.js)

- **Live Demo:** kmar-xi.vercel.app
- Built a dashboard-based hotel management system for handling bookings, customer records, and hotel operations.

- Implemented secure authentication using cookies and middleware for protected routes and user session management.
- Integrated analytics dashboard using ApexCharts for monitoring booking data and operational insights.
- Designed scalable and responsive user interface architecture focused on performance and better user experience.
- Tech Stack: Next.js, React.js, JavaScript, Cookies, ApexCharts, CSS

Bank Management System

- Developed a console-based banking management system using C language to automate core banking operations.
- Implemented account creation, deposit, withdrawal, update, and customer account management modules.
- Used file handling for persistent data storage and secure transaction processing.
- Built modular function-based architecture with balance validation and customer search functionality.
- Tech Stack: C Language, File Handling, Data Structures

EDUCATION

Maharishi Dayanand University (MDU), Rohtak

Bachelor of Computer Applications (BCA) - Web Development

- **CGPA:** 8.9
- **Relevant Coursework:** Web Development, Database Management System, Programming Fundamentals, Computer Networks

pursuing

Haryana, India

Senior Secondary (Class XII)

CBSE Board | English Medium | python |mysql

- **Board:** CBSE

2025

India

Secondary (Class X)

CBSE Board | English Medium

- **Board:** CBSE

2023

India

SKILLS

Programming Languages: C, C++, Java, Python, JavaScript, SQL

Frontend Development: HTML5, CSS3, Sass, Bootstrap, Responsive Web Design, React.js, Next.js

Backend Development: FastAPI, Node.js, Express.js, REST API Development

Databases: MongoDB, MySQL

Authentication & Security: JWT Authentication, Password Hashing, API Security

Cloud & Deployment: Cloudinary, Vercel, Render

Developer Tools: Git, GitHub, Postman, VS Code, Figma

Core Concepts: Data Structures, OOP, DBMS, API Integration, State Management, Authentication Flow

Languages Known: Hindi (Read, Write, Speak), English (Read, Write, Speak)
